EXPERIMENT NO 2

Design a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

Aim: -

To create a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

Procedure: -

1. open Figma
2. Create a new file
3. Select the Frames
4. Design Visual Elements
5. Make it Interactive
6. Add icons on the Frame
7. Incorporate Multimedia
8. Storyboard Animation
9. Review and edit the Prototype
10. Save and Share

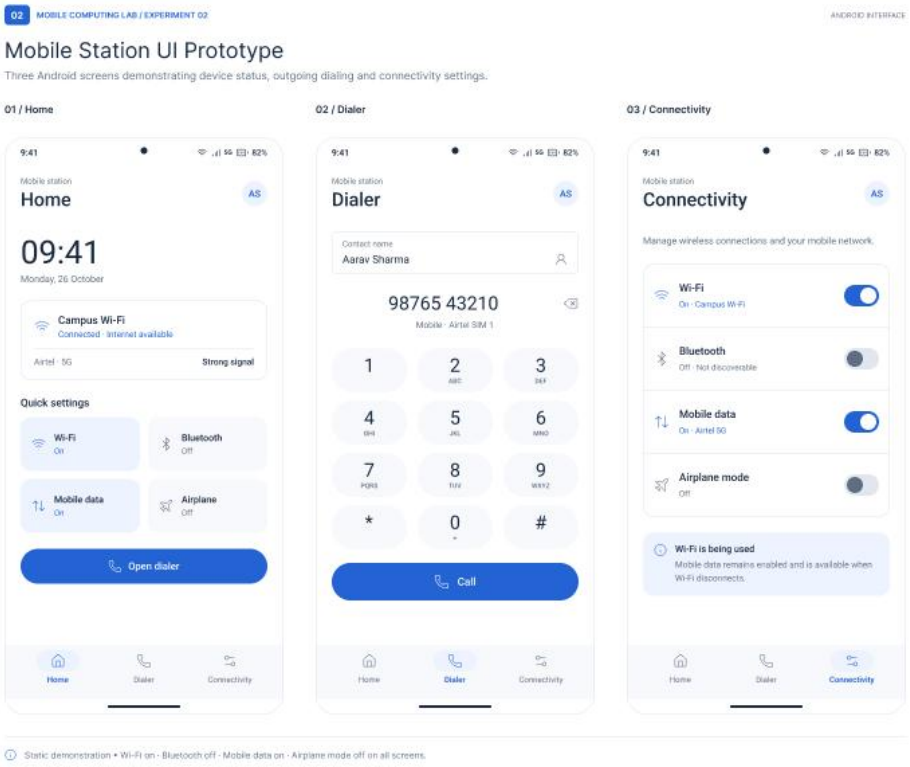

Components and Their Functions

- Home screen: device status and shortcuts.
- Dialer: number entry and call action.
- Connectivity controls: wireless settings.
- Status bar: signal, battery and connection indicators.
- Navigation: moves between screens.

OUTPUT:

Result

The mobile station interface was designed in Figma. Verify screen navigation and controls in Present mode.
