EXPERIMENT NO 5

Design a wireframe for a mobile application that incorporates localization features using Figma.

Aim: -

To design a wireframe using Figma for a mobile application that incorporates localization features

Procedure: -

1. open Figma
2. Create a new file
3. Select the Frames
4. Design Visual Elements
5. Make it Interactive
6. Add icons on the Frame
7. Incorporate Multimedia
8. Storyboard Animation
9. Review and edit the Prototype
10. Save and Share

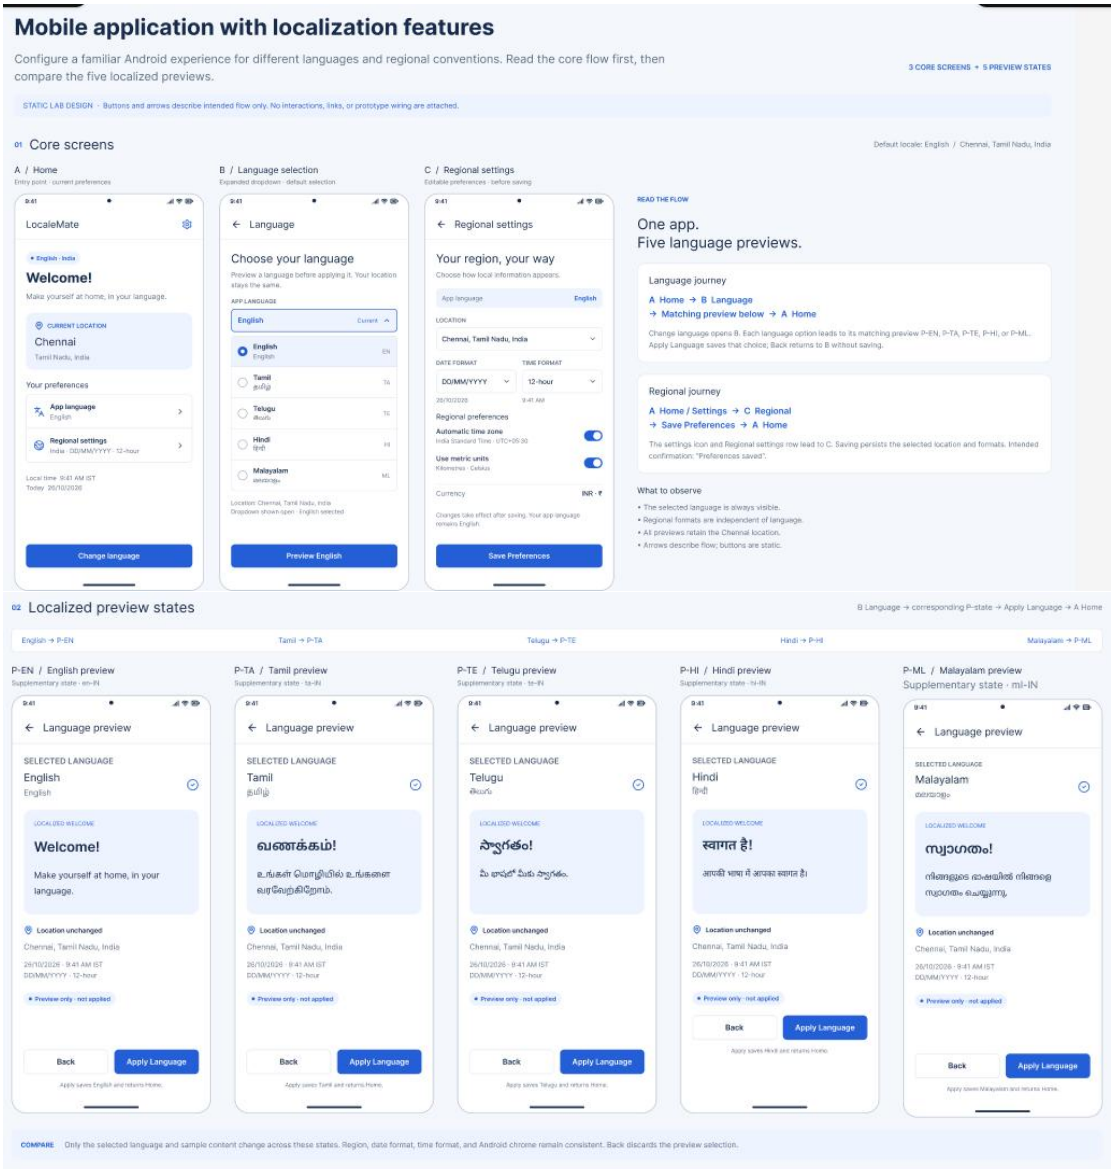

Components and Their Functions

1. Language selector: chooses display language.
2. Location setting: selects region/location.
3. Date/time settings: regional formats.
4. Save button: saves preferences in the prototype flow.
5. Preview: demonstrates localized text.
